Summary of deliverables

I've delivered your completed web app prototype, including:

- Database provisioned, configured, with the schema applied.
- API server running with connection to the database.
- Web server running and accessible to users.

Additionally, I've:

- Run benchmark testing end-to-end to ensure support for 100 concurrent user.
- Tested the UI on all browsers and device screen sizes requiring support.
- Built the UI to be localization-ready.

Refer to the project deliverables and the original Statement of Work for a more comprehensive view of the services rendered.

Reminders

Billing

You shall soon receive an invoice in your inbox for the full project amount of **$50**. Payments should be made within **45 days** of receipt. If you expect your payment will be delayed, if you require corrections to the invoice, or if you experience issues with the payment process, please contact me using the information at the top of this document.

Please reference our service agreement for full payment terms.

Warranty

Based on the delivery date of August 30th, 2024, you have until **September 29th, 2024** to identify any defects or omissions that are out of scope. You can contact me by email or phone and I will

get to work repairing any issues covered by warranty. If you encounter issues after the warranty period, please contact me so I can determine the most cost-effective way to help you out.

Please reference Section 11 of our service agreement for full warranty terms.

What's next?

I hope you are satisfied with your software. It's been a pleasure serving you, and I'd be happy to do so again in the future.

If you'd like me to continue work on the next iteration of Awesome New Web App, please reach out to me so that we can schedule time for requirements discovery and discuss whether another Project or a Fractional Developer Plan is the right fit.
